THE ASSIGNMENT OF GAUGERS.

The New Order of Things Leaves Mr Moseley Out in the Cold. Collector-of-Internal-Revenue James

D. Brady is keeping things stirring at the custom-house, and yesterday he reassigned Gauger Newberne to duty at Portsmouth and Norfolk, and assigned Gauger S. Boyce Brady to duty in Richmond, thus leaving Gauger D. W. Moseley

Collector stated that no politics were involved in his action in making these changes. The gaugers appointed, he said, were Democrats, and he was sorry he had no Republicans to assign to sorry he had no Republicans to assign to duty, as he would in every instance give them the preference. There were ninegaugers in the district, he said, and all of them were Democrats. Three-Messrs. Moseley, Newberne, and Brady-are assigned for duty at rectifying houses in Richmond, Norfolk, and Portsmouth. "These three gentlemen," said Colonel Brady, "are all well-known Democrats. "These three gentlemen," said Colonel Brady, "are all well-known Democrats. Mr. Newberne is a brother of Delegate M. S. Newberne, of Norfolk county; Mr. Brady is a resident of Richmond, and has a sick wife here. I relieved him." said the Collector, "at Norfolk and assigned him to duty here, leaving Dr. Moseley unassigned. Gauger Newberne, who has been unassigned for some time past, was assigned to succeed Mr. Brady at Norfolk. I felt that the good of the service would be promoted by having Mr. Brady in Richmond, and restoring Mr. Newberne to duty. Thus, you see, Dr. Moseley had been left on the unassigned list. This is all there is in the signed list. This is all there is in the

"Buck" Mallory's Murderer Once

notorious, gamblers of Virginia, and who was sentenced to two years' imprisonment in the penitentiary, has served his term out, and is now a free man.

He was liberated from the prison yesterday morning, and was met at the gates by his young and pretty wife, who has stood nobly by him throughout his troubles, and together the happy pair left for their home, in Petersburg.

Mrs. Harris was under the impression that her husband would be liberated on Monday, and went to the prison bright and early that morning to receive him. She was disappointed, but not cast down when she learned that another twenty-four hours must intervene before she could see her husband, but busied herself in preparing for the reunion. She came down town and purchased a new suit of clothes for Harris, which she sent out to the prison, and arrayed in these, with his handsome diamonds glittering in his shirt-front, he made his advent into the world from which he had been excluded for so long a time.

Harris had quite a neat little sum of money which he had accumulated by working overtime while in prison, and received too by wire from a friend.

MR. BROADDUS EXONERATED.

He Will Remain on the Brookland District School Board. The Henrico Board of Instruction. composed of Judge T. A. Wickham, Commonwealth's-Attorney Sands, and Superintendent - of-Public - Schools Fussell, met at the county court-house yesterday morning to investigate charges against Trustee John E. Broaddus, of

Brookland District, which charges were preferred by Mr. Herndon Tallaferro, one of his colleagues. About a month ago a school-house burned down in the district, and prompt burned down in the district, and prompt action being necessary, bids were called for by Messrs. Broaddus and Jeter, of the trustees, and the contract for the rebuilding of the school-house was given to a son of Mr. Broaddus, who had submitted the lowest of these bids. The amount involved by the contract was a little over \$200.

As soon as Mr. Tallaferro learned of the action of Messrs. Broaddus and

the action of Messrs. Broaddus and Jeter, he became highly indignant, and preferred charges against the former, claiming that he was trying to run the district in his own personal interest.

The matter was thoroughly investi-gated by the Board of Public Instruc-tion. A number of witnesses were heard, and the board finally decided

FOR THE DRUMMER.

AN INTERCHANGEABLE RAILWAY MILEAGE BOOK SOUGHT.

MESSRS. HAGAN AND WALLERSTEIN.

They Appear Before the Northeastern Passenger Association's Committee, and Believe They Will Obtain the Ticket Desired.

WASHINGTON, D. C., November 16 .-

(Special.)-Chairman M. W. Phalen, of the National Railroad Committee of the Travellers' Protective Association, and Mr. John C. Hagan, of Richmond, of the same committee, accompanied Mr. Joseph Wallerstein, of Richmond, president of the National Travellers' Protective Association, were before the Conference Committee of the Southeastern Passenger Association to-day to ask for the issuance of an interchangeable mileage book to members of their association. Chairman Richardson, of the Passenger Association presided. mileage-book of this sort is issued by a western railroad association, that embraces 20,000 miles, and one by another association that takes in 13,000 miles. The advantage to a commercial agent of an interchangeable book is very clear. It saves him the trouble of going to the offices of the various railroad companies and purchasing a book for each line. With the interchangeable book in operation in the South a drummer could go to the Coast-Line office in Richmond, or Wilmington, N. C., or at any other point where books are sold, and buy a book that would be good over the Southern railway or any other system that might belong to the eastern Railway Association. He could then carry one book for the southeastern part of the United States, instead of having to carry half a dozen or more. The Conference Committee seemed to favorably impressed with the repre-

sentations made by Messrs, Phalen, Hagan, and Wallerstein, and promised to give the matter careful consideration. The committee also suggested a re-duction of rates, but they were not so urgent about this as about the interchangeable book, Mr. Phalen and the Richmond gentlemen have every reason to believe the concession will be made.

WASHINGTON, November 16 .- The government examiners of tobacco at several of the more important points of entry in the United States, by order of the Secretary of the Treasury, met in conference in New York recently with a view to the adoption of a uniform practice in the classification of imported tobacco. The report of the conference, which has reached the Treasury Department, makes three recommendations, as

First, that 25 per cent. of all marks of every invoice of imported tobacco should be examined, and that the rule for the present be limited to tobacco im ported from the West Indies, Mexico, and South America. Second, that the percentage of wrap-

GEORGIA'S TRIPLE MURDER. It Was Done by Moonshiners-Fede-

CINCINNATI, O., November 16 .- A special to the Commercial Tribune from Fairburn, Ga., says: The Turner triple murder is developing fresh sensations, At the Coroner's inquest the scene of the shooting was thoroughly inspected, and the manner of the deaths of the three victims settled beyond doubt. The members of the jury are keeping quiet, but it is generally known that the murdered trio met their deaths at the hands of moonshiners, who felt it necessary to get

out of the way to destroy incriminating evidence in their possession. The Federal authorities are considering the advisability of investigating this clue, and it is the verdict of the Turners' friends that this is the real cause of their murder. Bloodhounds were placed on the trail of the assassins, but they lost it on the public road.

AT AUCTION.

At the request of the Southern Stove Works Company and G. G. Valentine Esq., I will sell, by public auction, on the premises, on FRIDAY, DECEMBER 3, 1897.

at 12 o'clock M., the valuable PLANT of the Southern Stove-Works Company, having a front of 258 feet on the north line of Cary street, and embracing the whole front, from Twenty-first to Twenty-second street, and having thereon, in addition to a fully equipped stove plant, a large brick warehouse, formerly known as "G. F. Watson's Factory," and a large one-story building, which could, at a comparatively small expense, be made suitable for mercantile uses or for to-bacco storage, as well as having peculiar adaptability for general manufacturing purposes. The machinery embraces, besides the boiler and engine, a full complement of modern stove-making machinery, and is extensive enough to give employment to at least fifty moulders. It can be safely asserted that a spurtrack of the Southern Railway Company can be brought to the front of this property for the mere asking, a rather unusual circumstance, as there is but a limited amount of property in this city to which a side-track can be gotten, and it is an important factor in considering the value and desirability of the purat 12 o'clock M., the valuable PLANT of
